

## Hotel & Motel Accommodations for the 2018 National Specialty

There is a wide variation in prices for the hotels in the area of the show site so we have decided this year that we would not have a host hotel. We are leaving it up to you to make your own decision and reservations. Since there is a very limited choice in the area I would suggest you make them early, you can always cancel late if need be, be sure to check their cancellation policies when booking.

Rheal called **Comfort Inn, St Catharine's** which is approximately 20 minutes from the show site, the cost is \$169.99 & no dog fee.

He also called **Canada Best Value Inn, Welland** (905-735-6666) which is about 2 minutes walking distance from the show site and has a Don Cherry restaurant onsite. Cost is \$175.00 plus \$10 per dog per night fee.

Dave and I decided to take a drive down to the show area to have a look at both of the small privately owned motels hoping to find a less expensive option for our members. Both motels were clean with lots of grassy area for walking your dog. Wainfleet was probably a little better and the room we saw seemed a little bigger than the one we saw at Hipwell but they were not the same type of room so this may not be so. Wainfleet is further away and has fewer rooms. I have listed some information below but you can google them for more info, I have included some of their promo from the internet.

**Hipwell Motel, Pelham** (905-892-3588) is a rural low-rise motel and about 10 minutes from the show grounds. Prices start at \$60 per room, dog charge is \$10 per night per dog and \$5 if you have more than one dog. Most expensive room with a kitchen is \$90. The modest rooms feature en suite bathrooms and cable TV. Some rooms have mini-fridges and microwaves or kitchenettes. Located on Highway 20 at Effingham Road (#32), it is 19.9 km from Niagara Falls, 2.9 km from Peninsula Lakes Golf Club,

Amenities include a heated outdoor pool with a sundeck and lounge chairs, grassy picnic grounds and a children's play area. Parking is available for trucks and RVs.
